

## Galp's sustainability strategy wins gold medal in S&P Global's Sustainability Yearbook

- Galp's performance in the environmental and social areas reached the highest values among peers in the Oil&Gas industry.
- The criteria "Climate strategy", "Water-related risks", "Labor practices indicators", "Environmental report" and "Social report" were the most important for the overall score of 82 points in one of the most complete yearbooks on corporate sustainability in the market.

Galp was awarded a gold medal in the 2022 edition of the Sustainability Yearbook, produced by S&P Global. The evaluation was based on the criteria considered most relevant in all dimensions of sustainability in Galp's activity, and the Company obtained an overall score of 82 points.

The results disclosed by S&P Global indicate that Galp achieved the best records in the environmental and social areas, with scores of 93 and 86, respectively, representing the highest values obtained among peers in the Oil&Gas Upstream & Integrated industry.

The criteria "Climate Strategy", "Water-related Risks", "Labor Practice Indicators", "Environmental Reporting" and "Social Reporting" were those in which Galp's sustainability performance stood out the most in the S&P Global assessment.

"This is another distinction that confirms Galp's strong commitment to sustainability and to the best practices in the industry, in all parameters of our activity and in all countries where we operate," said Galp's CEO, Andy Brown.

The 2022 Sustainability Yearbook counted on the participation of more than 2,100 companies - representing more than 45% of the global market capitalization - in the Corporate Sustainability Assessment. In all, more than 7,500 companies were evaluated for potential inclusion in this yearbook, considered one of the most complete compilations on corporate sustainability.

### Sobre a Galp

A Galp é uma empresa de energia comprometida com o desenvolvimento de soluções eficientes e sustentáveis nas suas operações e nas ofertas integradas que disponibiliza aos seus clientes. Criamos soluções simples, flexíveis e competitivas para as necessidades energéticas ou de mobilidade tanto de grandes indústrias e pequenas e médias empresas, como do consumidor individual. A nossa oferta inclui várias formas de energia – da eletricidade produzida com fontes renováveis ao gás natural e aos combustíveis líquidos. Como produtor, atuamos na extração de petróleo e gás natural a partir de reservatórios situados quilómetros abaixo da superfície marítima e somos igualmente um dos principais produtores Ibéricos de energia elétrica de base solar. Contribuímos para o desenvolvimento económico dos 10 países em que operamos e para o progresso social das comunidades que nos acolhem. Somos, por isso, líderes do nosso setor nos principais índices mundiais de sustentabilidade. A Galp emprega diretamente 6.360 pessoas. Mais informações em [www.galp.com](http://www.galp.com)
