

# Corporate Social Responsibility Policy

## Context

Galp, as a reference company in the energy sector, enshrines corporate social responsibility as a fundamental dimension of management, respecting and complying with its principles throughout its value chain and in its relationship with stakeholders, indifferent contexts and geographies in which it operates, pursuant to NP 4469\_2019.

## Company's Position

Galp is committed to:

- Identify and integrate aspects of social responsibility, taking into account the analysis of the context and strategic objectives of the organization, covering the entire life cycle of its products and services;
- Establish corporate social responsibility goals that are challenging and to promote the actions required for their implementation, fostering the continuous improvement of its performance in this field;
- Promote ethical conduct based on the values of honesty, transparency and integrity, evidencing a permanent concern with the economy, people and the environment;
- Recognise the right of the stakeholders to be heard, assuring that their expectations are taken into account in the decision-making process;
- Respect the Rule of Law and to act in accordance with the laws, standards, regulations and best practices, national and international, applicable to its activities;
- Respect and promote human rights, the fundamental rights at work, the rights of indigenous peoples and the voluntary principles on security and human rights;
- Implement operating practices that seek to prevent corruption in all its forms;
- Promote a growing environmental awareness, based on principles of precaution, in particular with respect to the prevention of pollution and the conservation of natural resources, biodiversity and ecosystems;
- Foster the implementation of innovative solutions for eco-efficiency and sustainable mobility, along its value chain, which lead to the development of a low carbon economy;

- Inform and clarify consumers on issues related with the quality, health and safety of the products and services supplied by Galp, aiming to promote sustainable consumption and assuring the privacy and protection of their personal data;
- Promote the development of the communities where it operates, in cooperation with different agents, through actions of social investment or of philanthropic nature, which may contribute, in an inclusive way, for the achievement of their sustainable development goals, having equally into account circumstances arising from emergency situations.

## Final Statement

Galp is committed to adopt the best operational and governance practices in order to promote the integration of the fundamental principles and themes on corporate social responsibility in the ethical, social, environmental and economic spheres, along its value chain and scope of action.
