Galp Energia, SGPS, S.A.

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2008 (Translation of notes originally issued in Portuguese – Note 54) (Amounts expressed in thousands of Euros – tEuros)

1. Introductory note

Galp Energia, SGPS, S.A. (hereinafter referred to as Galp or the Company), was incorporated as a Government owned corporation under Decree-Law 137-A/99 of 22 April 1999, with the name “Galp – Petróleos e Gás de Portugal, SGPS, S.A.”, having adopted its present name of Galp Energia, SGPS, S.A. on 13 September 2000.

The Company’s head office is in Lisbon and its corporate objects are the management of other companies having, as of the date of its incorporation, grouped the State’s direct participations in the following companies: Petróleos de Portugal – Petrogal, S.A.; GDP – Gás de Portugal, SGPS, S.A. (merged into the Company effective as of 1 January 2008) and Transgás – Sociedade Portuguesa de Gás Natural, S.A., currently designated Galp Gás Natural, S.A..

The Company’s shareholder structure has changed several times over recent years, its position at 31 December 2008 being shown in Note 37.

The following notes are numbered as defined in the Portuguese Official Chart of Accounts (“Plano Oficial de Contabilidade – POC”). The numbers not included herein are either not applicable to the Company or not significant to the accompanying financial statements.

In May 2008, the subsidiary GDP – Gás de Portugal, SGPS, S.A., a fully owned subsidiary, was merged into the Company with effective date of 1 January 2008. The balance sheet of GDP – Gás de Portugal, SGPS, S.A. as of 31 December 2007 was made up as follows:

| Accruals and deferrals | 1,005 |
| Total liabilities | 3,304 |
| Total equity and liabilities | 800,666 |

2. Comparability

In 2008 the Company’s subsidiaries, recorded in accordance with the equity method of accounting (Note 3), changed the method for valuing the cost of consumption and sales of inventories from Last-In-First-Out (LIFO) to weighted average cost basis. If this method had not been changed the Company’s assets, liabilities and net profit for 2008 would have been decreased by tEuros 155,836, tEuros 41,297 and tEuros 114,539, respectively.

3. Basis of presentation and principal accounting policies

The accompanying financial statements were prepared on a going concern basis from the accounting records of the Company, maintained in accordance with generally accepted accounting principles in Portugal.

The accompanying financial statements reflect only the Company’s individual accounts, prepared as required by law for approval by the Shareholders’ General Meeting, investments having been recorded in accordance with the equity method as explained in Note 3.c). The Company will prepare separate consolidated financial statements which include the financial statements of the companies in which it has a majority participation or management control. Therefore, equity at 31 December 2008 and net profit for the year then ended included in these individual financial statements reflect the effect of consolidating equity and the results of the subsidiary and associated companies based on their financial statements. However, these financial statements do not reflect the effect of a full consolidation of assets, liabilities, costs and income.

The consolidated financial statements have been prepared in accordance with IFRS – International Financial Reporting Standards as adopted by the European Union. Therefore equity at 31 December 2008 and 2007 and profit for the years then ended in the Company's consolidated financial statements differ from those presented in the individual financial statements.

Financial information relating to the Group and associated companies is shown in Note 16.

The principal valuation criteria used in preparing the financial statements are as follows:

a) Intangible fixed assets

Intangible fixed assets, which consist of software utilisation licences, are amortised on a straight-line basis over a period of three years (Note 8).

b) Tangible fixed assets

Tangible fixed assets are recorded at cost. Depreciation is provided on a straight-line basis over the following estimated periods of useful life of the assets:

| | Years |
|--------------------------|--------|
| Administrative equipment | 5 to 8 |
| Other tangible assets | 8 |

c) Investments

Investments in Group and associated companies are recorded using the equity method of accounting, under which they are initially recorded at cost, which corresponds to the amount attributed for purposes of paying up the capital in kind (Introductory Note), which is then increased or decreased to the amount corresponding to the proportion owned of the net equity of these companies.

In accordance with the equity method investments are adjusted periodically by the amount corresponding to the participation in the net results of the subsidiary and associated companies by corresponding entry to the profit and loss statement for the year (Note 45). In addition dividends received from these companies are recorded as decreases in the amount of the investments.

As mentioned in paragraph h) below, the accumulated effect of currency translation adjustments resulting from the translation of the financial statements of subsidiaries expressed in foreign currencies is recorded in the equity caption "Adjustments in equity investments in subsidiary and associated companies".

Investments corresponding to participations of less than 20% in the capital of other companies are stated at cost in the caption "Securities and other financial applications".

Loans to Group and associated companies are stated at their nominal value.

Estimated losses on the realisation and/or recovery of investments are recorded in the caption "Other provisions" (Note 34).

d) Accruals basis

Income and expenses are recorded on an accruals basis, under which they are recorded in the period to which they relate independently of when they are received or paid (Note 50).

e) Balance sheet classification

Assets realisable and liabilities payable in more than one year from the balance sheet date are classified as medium and long term assets and liabilities, respectively.

f) Vacation and vacation subsidy

Vacation and vacation subsidy and corresponding charges are recognised as cost of the period in which the employees acquire the right to receive them. Consequently, the accrued liability for vacation pay and vacation subsidy and corresponding charges as of the balance sheet date were estimated and recorded in the caption "Accrued costs" (Note 50).

g) Income tax

Since 2001 Galp Energia, SGPS, S.A. has been covered by the special regime for the taxation of groups of companies, which covers all the companies in which it has a direct or indirect participation of at least 90% in their capital and are also resident in Portugal and subject to Corporate Income Tax.

Deferred tax refers to timing differences between the amounts of assets and liabilities for accounting and for tax purposes.

Deferred tax assets and liabilities are calculated and periodically valued using the tax rates expected to be in force on the dates the temporary differences revert.

Deferred tax assets are recognised only when there are reasonable expectations of sufficient future taxable profits to use them. On each balance sheet date a reassessment is made of the temporary differences underlying the deferred tax assets so as to recognise the deferred tax assets not recognised previously due to not complying with all the conditions for them to be recorded and/or to reduce the amount of deferred tax assets due to the current expectation of their future recovery (Note 6).

h) Translation of foreign currency financial statements

Exchange differences arising on the translation to Euros of the foreign currency financial statements of subsidiary and associated companies are included in the equity caption "Adjustments in equity investments in group and associated companies". These financial statements are translated at the following rates:

- (i) exchange rate in force at the balance sheet date for all assets and liabilities;
- (ii) average exchange rate for the year for the statement of profit and loss captions; and
- (iii) historical exchange rate for the remaining equity captions.

6. Income tax

In accordance with current legislation, tax returns are subject to review and correction by the tax authorities for a period of four years (ten years for social security up to 2000, inclusive, and five years as from 2001). Consequently, the Company's tax returns for the years from 2005 to 2008 are still subject to review.

The Company's management believes that any adjustment to the tax returns that could result from reviews carried out by the tax authorities to these tax returns will not have a significant effect on the financial statements as of 31 December 2008.

Under current Portuguese legislation tax losses can be carried forward for offset against taxable income for a period of six years.

The Company and some of its subsidiaries are taxed on a consolidated basis, in accordance with the special regime for taxation of groups of companies, their taxable results being determined in the Company. However, estimated income tax of the Company and its subsidiaries is recorded based on their taxable results, which for the year ended 31 December 2008 represents an account payable to and receivable from these companies of tEuros 77,632 (Note 16) and tEuros 20,788 (Note 16), respectively.

Following is a reconciliation between the nominal tax rate and income tax recorded in the income statement:

| | |
|---------------------------------------|----------------|
| Profit before income tax | 474,078 |
| Nominal tax rate | 26.% |
| Expected tax | 125,631 |
| Permanent differences (a) | (123,582) |
| Reversal of deferred tax on tax gains | (988) |
| Adjustment to income tax | 44 |
| Income tax for the year | 1,105 |

(a) Permanent differences are made up as follows:

| | |
|---|------------------|
| Effect of applying the equity method (Note 45) | (466,166) |
| Insufficiency of estimated income tax (Note 46) | 439 |
| Tax losses | (1,100) |
| Other differences, net | 478 |
| | (466,349) |
| Nominal tax rate | 26.5% |
| | (123,582) |

Income tax for the year recorded in the statement of profit and loss by nature is made up as follows:

| | |
|---------------------------------|--------------|
| Estimated current tax (Note 28) | 2,093 |
| Deferred tax | (988) |
| | 1,105 |

The amount of tEuros 988 corresponds to reversal of the deferred tax liability recorded by the Company as a result of the merger of GDP – Gás de Portugal, SGPS, S.A., which corresponded to the gain obtained in preceding years and not taxed in those years.

In accordance with current tax legislation, gains and losses on Group and associated companies resulting from application of the equity method of accounting are not considered for tax purposes in the year they are recorded. In compliance with Portuguese Accounting Directive 28, deferred tax liabilities relating to undistributed profits of subsidiaries were not recorded.

7. Average number of employees

Other than the members of the Corporate Boards, at 31 December 2008 the Company had 1 employee.

8. Industrial property and other rights

At 31 December 2008 this caption was made up as follows:

In 2008 the Company contracted a new medium and long term loan of tEuros 50,000 from the European Investment Bank for the exclusive purpose of funding the realisation and operation of a project to construct and operate a co-generating plant in the Porto refinery. The loan bears interest at the revisable fixed rate regime and is repayable as follows:

| Bank overdrafts (Note 48) | (210,472) | (8,425) |
| | (206,842) | (7,885) |

52. Other information

Following the sale in 1999 of 20% of OPTEP, SGPS, S.A. share capital, corresponding to 220,000 shares with a nominal value of 5 Euros per share, the base selling price of tEuros 94,772 was established contractually, the amount of tEuros 37,409 having been established for the 093X segment and tEuros 57,363 for the E3G/Edinet segment.

The sale by GDP – Gás de Portugal, SGPS, S.A. (for purposes of the merger carried out in 2008) to EDP, S.A. was established with the condition that if OPTEP SGPS, S.A., 093X or any other entity directly or indirectly controlled or participated in by EDP sells or in any other way disposes of, to a third party, a participation equivalent to 5% of Optimus, that is 450,000 shares with a nominal value of Euros 5 per share, during a period of 3 years as from the date of signature of the agreement (24 June 1999), the difference between the amount of tEuros 37,409 and the sales price would be divided between the parties, as follows:

| tEuros | EDP | GDP group |
|---------------------------|-----|-----------|
| Between 37,409 and 42,397 | 0% | 100% |
| Between 42,397 and 52,373 | 25% | 75% |
| More than 52,373 | 75% | 25% |

On 28 September 2000 the parties EDP, S.A. and the GDP group made an amendment to the agreement, under which the deadline for dividing any potential gain on the future sale of Optimus shares was extended to 31 December 2003.

On 22 March 2002 EDP, S.A. announced the sale of the participation in OPTEP SGPS, S.A., the company that holds a 25.49% participation in Optimus, to Thorn Finance, S.A.. The sales price was fixed at tEuros 315,000, which means that Thorn Finance valued Optimus at tEuros 1,235,779, which is higher than the value established between the parties, which was tEuros 748,197. Therefore, there will be an upside of tEuros 15,126 payable by EDP, S.A., to GDP – Gás de Portugal, SGPS, S.A..

Contacts between the parties continued in 2008, the parties essentially maintaining their positions.

As a result of the foundation of Transgás SGPS, S.A., currently merged into GDP – Gás de Portugal, SGPS, S.A. (formerly – GDP Distribuição, SGPS, S.A.), through payments in kind, the company became holder of the 220,000 shares in OPTEP previously held by Transgás – Sociedade Portuguesa de Gás Natural, S.A., (currently designated Galp Gás Natural, S.A.).

As EDP, S.A. has not agreed to the Company's expectations, this upside receivable has not been recorded.

53. Contingent liabilities

At 31 December 2008, as a result of the merger of GDP – Gás de Portugal, SGPS, S.A., the Company has a contingent liability relating to a legal process in progress, regarding the re-privatisation of Driftal, involving an indemnity of tEuros 19,952. The process results from a legal action brought by the company Companhia Petroquímica do Barreiro, Lda., in January 2001, in which it claims its right to acquire the capital of Driftal – Plásticos de Portugal, S.A., as well as payment of indemnity for loss of profits. The Company's Board of Directors, based on the opinion of its lawyer, believes that this process will not result in any payment by the Company, and so no provision for this has been recorded, the Company having, however, given a bank guarantee of that amount (Note 32).
