GALP ENERGIA, SGPS, S. A.

Notes to the financial statements as of 31 December 2012

(Amounts stated in thousands of euros – €k)

(Translation of notes originally issued in Portuguese – Note 37)

1. INTRODUCTION

Galp Energia, SGPS, S. A. (hereinafter referred to as Galp, Group or the Company), was incorporated as a government-owned corporation under Decree-Law 137-A/99 of 22 April 1999, with the name Galp – Petróleos e Gás de Portugal, SGPS, S. A., having adopted its present designation of Galp Energia, SGPS, S. A. on 13 September 2000.

The Company's Head Office is in Lisbon and its main purpose is the management of other companies having, as of the date of its constitution, taken control of the Portuguese state's direct participations in the following companies: Petróleos de Portugal-Petrogal, S. A.; GDP-Gás de Portugal, SGPS, S. A. and Transgás-Sociedade Portuguesa de Gás Natural, S. A., currently designated Galp Gás Natural, S. A.

The Company's shareholders positions suffered several changes over the years, and the current Company shareholder position as of 31 December 2012 is stated in Note 19.

Part of the Company's shares, representing 30.32% of its capital, is listed on the NYSE Euronext Lisbon stock exchange.

The following financial statements are presented in euros (functional currency) since this is most commonly used currency in the economic environment in which the Company operates.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PRESENTATION

Galp Energia's financial statements were prepared on a going concern basis, and under the historical cost convention, except for financial derivative instruments which are stated at fair value based on the accounting records of the Company, maintained in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union (EU), effective for the year beginning 1 January 2012. The IFRS issued by the International Accounting Standards Board (IASB) and the International Accounting Standards (IAS) issued by the International Accounting Standards Committee (IASC) as well as their respective interpretations IFRIC and SIC, issued by the International Financial Reporting Interpretation Committee (IFRIC) and Standing Interpretation Committee (SIC) should be considered as part of these standards. These standards and interpretations are hereinafter referred to as IFRS.

The IAS/IFRS standards which were both approved and published in the Official Journal of the European Union (OJEU) during 2012 and which are considered to be applicable to present and subsequent years are presented in the table below:

Standards and interpretations to be applied in subsequent years, if applicable:

The Board of Directors believes that the separate accompanying financial statements and notes provide a fair view of the Company's financial information. Estimates of the effect of the amounts of assets, liabilities, as well as income and costs as of the reporting date, were used in preparing the accompanying financial statements. All of the estimates and assumptions used by the Board of Directors were, however, based on the best information available regarding events and transactions in process at the time of approval of the financial statements.

In the preparation and the presentation of the separate financial statements, the Company declares that it complies with the IAS/IFRS and their interpretations SIC/IFRIC as endorsed by the EU.

The main accounting principles which were adopted by the Company during the preparation of its separate financial statements are stated below. During the year ended 31 December 2012, there were no significant changes in the accounting principles applied compared to those which were considered in the preparation of financial information for the previous year, as no material error was registered in previous years.

These financial statements refer to the Company's separate financial statements and were prepared under the legal terms for approval at the shareholders general meeting, having the financial investments been recorded at acquisition cost as explained in Note 2.2. The Company will prepare and separately present consolidated financial statements where the financial statements of associates and jointly controlled entities will also be presented. Therefore, equity at 31 December 2012 and net profit for the year then ended included in these separate financial statements reflect the effect of consolidating equity and the results of the subsidiary and associated companies based on their financial statements. However, these financial statements do not reflect the effect of a full consolidation of assets, liabilities, costs and income.

2.2 INVESTMENTS IN SUBSIDIARIES

Investments in subsidiaries are recorded at the acquisition cost net of impairment losses, when applicable.

The investments in subsidiaries are presented in Note 4.

Dividends received from subsidiaries are booked as "Share of results of investments in associated and jointly controlled entities."

2.3 TANGIBLE ASSETS

Tangible fixed assets are recorded at acquisition cost net of depreciation and impairment losses.

Depreciation of the acquisition cost is calculated on a constant duodecimal system basis, as from the date the assets are available for operating, at the rates considered most appropriate to depreciate the assets during their estimated economic useful life.

The average depreciation rates used were as follows:

	Years
Administrative equipment	5 a 8
Other tangible assets	8

The capital gain/loss resulting from the write-off or disposal of tangible assets is determined by the difference between the sale price and the net book value as of the date of the write-off/disposal. The net book value includes accumulated impairment losses. The resulting accounting capital gain/loss is recorded in the income statement under the caption "Other operating income" or "Other operating costs", respectively.

2.4 IMPAIRMENT OF NON-CURRENT ASSETS, EXCEPT GOODWILL

Impairment tests are made as of the financial statements date and whenever a decline in the asset value is identified. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is registered in the income statements caption "Amortisation, depreciation and impairment loss on tangible assets".

The recoverable amount is the greater between the net selling price and the value in use. Net selling price is the amount that would be obtained from selling the asset in a transaction between independent and knowledgeable parties, less the costs directly attributable to the sale. Value in use corresponds to the present value of the future cash flows generated by the asset during its estimated economic useful life. The recoverable amount is estimated for the asset or cash generating unit to which it belongs. The discount rate used reflects the Weighted Average Cost of Capital (WACC) used by the Galp Energia Group.

Impairment losses which were recognised in prior periods are reversed when they no longer exist or have decreased. Such tests are made whenever there are indications that an impairment recognised in an earlier period has reverted. Reversal of impairment is recognised as a decrease in the income statement caption "Amortisation, depreciation and impairment loss of tangible assets". However, impairment losses are only reversed up to the book value that the asset would present (net of amortisation or depreciation), if the impairment loss had not been recorded.

2.5 PROVISIONS

Provisions are recorded when, and only when, the Company has a present (legal or constructive) obligation resulting from a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed and adjusted at each balance sheet date so as to reflect the best estimate at that date. Provisions for restructuring costs are recognised by the Company whenever there is a formal detailed restructuring plan.

During the year ended 31 December 2012, there were no transactions that should be classified as restructuring provisions.

2.6 FOREIGN CURRENCY BALANCES AND TRANSACTIONS

Transactions are recorded in the Company's financial statements in its functional currency, at the exchange rates in force on the date of transaction.

Gains and losses resulting from differences between the exchange rates in force on the date of transactions and those prevailing at the date of charging, payment or at the end of the reporting period are recorded as income and expenses, respectively, in the income statement caption "Exchange gain / (loss)".

As of 31 December 2012 and of 2011, the Company had no balances denominated in foreign currency.

2.7 INCOME AND ACCRUAL BASIS

Costs and income are recorded in the period to which they relate, regardless of when they are paid or received. Where the actual amounts of costs and income are not known they are estimated.

The "Other current assets" and "Other current liabilities" captions include the costs and income from the current period and for which the financial receipt or disbursement will only occur in future periods, as well as financial receipts or disbursements that have already occurred, but which relate to future periods, and that will be charged to the income statement in the respective periods.

The revenue from dividends is recognised when the right of the Company to recognise the amount is established.

2.8 FINANCIAL COSTS ON LOANS OBTAINED

Financial costs on loans obtained are recorded as financial costs on an accrual basis.

2.9 INCOME TAX

Since 2001, companies with head offices in continental Portugal in which the Group has a participation greater than 90% have been taxed in accordance with the special regime for the taxation of groups of companies, taxable income being determined in Galp Energia, SGPS, S. A.

Deferred taxes are calculated based on the liability method and correspond to the temporary differences between the book value of assets and liabilities and their respective tax values.

Deferred tax assets and liabilities are calculated and periodically valued using the tax rates which are expected to be in force on the date of reversal of temporary differences.

Deferred tax assets are quoted when there are reasonable prospects of sufficient future taxable income for them to be used. At the date of each balance sheet there is a reevaluation of the temporary differences underlying to the deferred tax assets, with the purpose of recognising assets by deferred assets not previously registered since they did not fulfill all requisites and/or to reduce the amount of deferred tax assets stated according to on the present expectation of their future recovery.

2.10 FINANCIAL INSTRUMENTS

Financial assets and liabilities are recorded on the balance sheet when the Company becomes a contractual party to the financial instrument.

a) Investments

Investments are classified as follows:

Investments at fair value through profit and loss

Investments measured at fair value through profit or loss are classified as current investments if maturity or expected realisation is less than 12 months, otherwise they are classified as non-current investments.

All purchases and sales of these investments are recorded on the date of signing the respective purchase and sale contracts, regardless of the date of financial settlement.

Investments are initially recorded at acquisition cost, which is the fair value of the price paid, including transaction costs.

After initial recognition, investments measured at fair value through profit or loss are revalued to fair value with reference to their market value at the reporting date, with no deduction for transaction costs which could be incurred upon sale. Equity instruments not listed on a regulated market and where it is not possible to reliably estimate their fair value, are maintained at cost less any non-reversible impairment losses.

Gains and losses resulting from changes in the fair value of investments at fair value through profit and loss are recognised in the income statement.

b) Receivables

Receivables are initially recorded at fair value and subsequently measured at amortised cost, less any impairment losses, presented in the caption "Impairment losses on receivables."

Usually, the amortised cost of these assets does not differ from their nominal value.

c) Equity or liability classification

Financial liabilities and equity instruments are classified in accordance with their contractual substance, regardless of their legal form.

d) Loans

Loans are recorded as liabilities based on the nominal amount received, net of related costs.

Financial costs are calculated at the effective interest rate and recognised in the income statement on an accrual basis.

Financial costs include interest and any arrangement fees incurred relating to the assembly and structuring of the loans.

e) Trade and other payables

Accounts payable are recorded at amortised cost. Usually, the amortised cost of these liabilities does not differ from their nominal value.

f) Derivative instruments

Hedge accounting

The Company uses derivative instruments to manage its financial risks as a way to hedge those risks. Derivative instruments to hedge financial risks are not used for trading purposes.

Derivative instruments used by the Company to hedge cash flows mainly relate to interest rate hedging instruments on loans obtained. The coefficients, calculation conventions, interest rate re-fixing dates and interest rate hedging instrument repayment schedules are in all ways identical to the conditions established in the underlying contracted loans, and as such represent perfect hedges. Derivatives are recorded at fair value through profit and loss. Whenever the hedged item is not measured at fair value (namely, borrowings measured at amortised cost), the effective hedge is adjusted in the carrying amount of the hedged item through profit and loss.

The following criteria are used by the Group to classify derivative instruments as cash flow hedging instruments:

- The hedge is expected to be highly effective in offsetting the changes in the cash flow of the hedged risk;
- The hedging effectiveness can be reliably measured;
- There is adequate documentation of the hedge at the beginning of the operation; and
- The hedged transaction is highly probable.

Interest rate hedging instruments are initially recorded at cost, and subsequently revalued to fair value, calculated by independent external entities using generally accepted valuation methods (such as "Discounted Cash-flows", among others, depending on the type and nature of the financial derivative). Changes in the fair value of these instruments are presented in the equity caption "Hedging reserves", being transferred to the income statement when the hedged instrument affects profit and loss.

Hedge accounting is discontinued when the derivative instruments mature or are sold. Where the derivative instrument stops qualifying as a hedging instrument, the accumulated fair value differences deferred in the equity caption "Hedging reserves" are transferred to the income statement or added to the book value of the asset which gave rise to the hedging transaction, and subsequent revaluations are recognised directly in the income statement.

A review was made of the Company's existing contracts so as to detect embedded derivatives, namely contractual clauses that could be considered as financial derivatives. No financial derivatives that should be recognised at fair value have been identified.

When embedded derivatives exist in other financial instruments or other contracts, they are recognised as separate derivatives in situations in which the risks and characteristics are not intimately related to the contracts and in situations in which the contracts are not reflected at fair value with unrealised gains and losses reflected in the income statement.

g) Cash and cash equivalents

The amounts included in the caption "Cash and cash equivalents" correspond to cash, bank deposits, term deposits and other treasury applications that mature in less than three months, and that can be readily mobilised with insignificant risk of change in their value.

For cash flow statement purposes, the caption "Cash and cash equivalents" also includes bank overdrafts included in the statement of financial position caption "Bank loans and overdrafts".

2.11 STATEMENT OF THE FINANCIAL POSITION CLASSIFICATION

Realisable assets and liabilities payable in more than one year from the date of the financial statement are classified as non-current assets and non-current liabilities, respectively.

2.12 SUBSEQUENT EVENTS

Events that occur after the balance sheet date that provide additional information on conditions that existed at the end of the reporting period are recognised in the financial statements. Events that occur after the balance sheet date that provide information on conditions that exist after the balance sheet date, if material, are disclosed in the notes to the financial statements.

2.13 JUDGMENTS AND ESTIMATES

The preparation of financial statements in accordance with generally accepted accounting principles requires estimates to be made that affect the recorded amount of assets and liabilities, the disclosure of contingent assets and liabilities at the end of each year and income and costs recognised each year. The actual results could be different depending on the estimates made.

Certain estimates are considered critical if: (i) the nature of the estimates is considered to be significant due to the level of subjectivity and judgment required to record situations in which there is great uncertainty or are very susceptible to changes in these situations; and (ii) the impact of the estimates on the financial situation or operating performance is significant.

Provisions for contingencies

The final cost of legal processes, settlements and other litigation can vary due to estimates based on different interpretations of the rules, opinions and final assessment of the losses. Consequently, any change in circumstances relating to these types of contingency can have a significant effect on the recorded amount of the provision for contingencies.

2.14 RISK MANAGEMENT AND HEDGING

The Galp Energia Group's operations lead to the exposure to risks of: (i) market risk, as a result of the volatility of prices of oil, natural gas and its derivatives, exchange rates and interest rates; (ii) credit risk as a result of its commercial activity; and (iii) liquidity risk as the Group could have difficulty in obtaining financial resources to cover its commitments.

The Company has an organisation and systems that enable it to identify, measure and control the different risks to which it is exposed and uses several financial instruments to hedge them in accordance with the corporate directives common to the whole Group. The contracting of these instruments is centralised.

The accounting policies explained in this section contain more details of these hedges.

During the year ended 31 December 2012, only material changes required by IFRS 7 – Financial instruments were disclosed.

2.15 SHARE CAPITAL

Common shares are classified as equity. The costs directly attributable to the issuance of new shares or other equity instruments are presented as a deduction, net of taxes, of the amount received resulting from the issuance.

3 COMPANIES INCLUDED IN THE CONSOLIDATION

9. INCOME TAX

The company and several of its subsidiaries are taxed in accordance with the special regime for the taxation of groups of companies, taxable income being determined in Galp Energia, SGPS, S. A. However, estimated income tax of the Company and its subsidiaries is recorded based on their individual tax results which, for the year ended in 31 December 2012, amounted to an account payable and receivable from these Group companies of €60,374 k and €58,486 k (Note 28), respectively.

The following matters could affect income tax payable in the future:

- (i) in accordance with current Portuguese legislation, corporate income tax returns are subject to review and correction by the tax authorities for a period of four years (Social Security can be reviewed for 10 years until 2000, inclusive and for five years after 2011), except when there are tax losses carried forward, tax benefits have been granted or there are claims or appeals in progress where, depending on the circumstances, the period can be extended or suspended;
- (ii) the Group's tax returns for the years 2009 to 2012 are still subject to review. Galp Energia's Board of Directors believes that any corrections arising from inspections by the tax authorities of these tax returns will not have a significant impact on the separate financial statements as of 31 December 2012 and 2011;
- (iii) in accordance with current tax legislation, gains and losses resulting from recognition of the results of subsidiaries and associated companies through application of the equity method are not considered as income or expenses for corporate income tax purposes in the year they are recognised for accounting purposes. Dividends are taxed in the year they are attributed.

Description of main loans

Bank loans

As of 31 December 2012 the Company subscribed for underwritten commercial paper programmes of up to €950,000 k, of which €900,000 k are non-current and €50,000 k are current.

The loans bear interest at Euribor rate, for the period of the issuance, in force on the second business day prior to the subscription date, added by variable spreads defined in the contractual conditions of the commercial paper programmes subscribed by the Company. The interest rates are applied to the amount of each issuance and remain unchanged during the entire period.

In 2006, the Company obtained a non-current loan of €58,000 k from the European Investment Bank for the exclusive purpose of implementing a project related with the construction and administration of a cogeneration unit at the Sines refinery. The loan was received in two installments of €39,000 k and €19,000 k, that pay interest at a fixed rate and a revisable fixed rate, respectively. The loan is reimbursed on a semester basis, with maturing date 15 September 2021 and 15 March 2022, respectively.

In 2008, the Company contracted an additional non-current loan of €50,000 k with the European Investment Bank for the exclusive purpose of construction and administration of a co-generating plant in the Porto refinery. The loan bears interest at a revisable fixed rate, with a maturity of nine years.

In 2009, The Company contracted a non-current loan of €500,000 k with the European Investment Bank, with the purpose of financing the conversion of the Sines and Porto refineries. The loan was received in two installments of €300,000 k and €200,000 k each payable over 15 years, including a grace period of two years and 13 years of repayment. The loan bears interest at a revisable fixed rate.

The loans from the European Investment Bank, excluding the installment of €200,000 k, are guaranteed by Petrogal, S. A.

The remaining loans with the European Investment Bank, in the amount of €200,000 k are guaranteed by Banking Syndicate.

Financial derivatives are defined as, in accordance with IAS/IFRS, "financial assets at fair value through profit and loss" or "financial liabilities at fair value through profit and loss". The interest rate financial derivatives that are contracted to hedge the variance in interest rates on loans are defined as "cash flow hedges". Interest rate derivatives that are contracted to hedge changes in fair value or other risks that might alter the effects on profit and loss arising from borrowings are defined as "fair value hedges".

In accordance with IFRS 7 an entity must classify how it measures fair value, in a hierarchy that reflects the meaning of the inputs used in measuring. The fair value hierarchy must have the following levels:

- Level 1 – quoted prices (not adjusted) for similar instruments;
- Level 2 – other directly or indirectly observable market inputs for the asset or the liability, than Level 1 inputs namely prices and derivatives prices, respectively;
- Level 3 – inputs for the asset or the liability not based on observable market data (not observable).

The fair value financial derivatives were determined by financial entities using observable market inputs and used generally accepted techniques and models (Level 2).

Additionally, the Board of Directors approved the advanced profit payment, amounting to €99,510 k. The amount €99,510 k was fully paid on 18 September 2012.

31. OIL RESERVES

Not applicable.

32. FINANCIAL RISK MANAGEMENT

Risk management

Galp Energia is exposed to several types of risks, market risk (interest rate), liquidity risk and credit risk, inherent to its activity, which affect its financial results.

Market risk

Interest rate risk

The total interest rate position is managed centrally. Interest rate exposure relates mainly to bank loans. The objective of managing interest rate risk is to reduce the volatility of financial costs in the income statement. The interest rate risk management policy is aimed at reducing exposure to variable rates through fixing interest rate risk on loans, using simple derivatives such as swaps.

Liquidity risk

Liquidity risk is defined as the amount by which profit and/or cash flow of the business are affected as a result of the Group's difficulty in obtaining the financial resources necessary to meet its operating and investment commitments.

The Galp Energia Group finances itself through cash flows generated by its operations and maintains a diversified portfolio of loans. The Group has access to credit amounts that are not fully used but that are at its disposal. These credits can cover all loans that are repayable in 12 months. The available short and medium and long term lines of credit that are not being used are sufficient to meet any immediate demand.

Credit risk

Credit risk results from potential non-compliance by third parties of contractual obligations to pay and so the risk level depends on the financial credibility of the counterparty.

In addition, counterparty credit risk exists on monetary investments and hedging instruments. Credit risk limits are established by Galp Energia and are implemented in the various business segments. The credit risk limits are defined and documented and credit limits for certain counterparties are based on their credit ratings, period of exposure and monetary amount of the exposure to credit risk.

Impairment of accounts receivable is explained in Notes 14 and 15.

33. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent assets

- (i) Following the sale in 1999 of 40% of OPTEP, SGPS, S. A.'s share capital, corresponding to 440,000 shares with a nominal value of €5 per share, the base selling price of €189,544 k was contractually established, of which €74,818 k was attributed to the 093X segment and €114,726 k to the E3G/Edinet segment.

The sale by GDP, SGPS, S. A. (currently designated Galp Energia, SGPS, S. A. for purposes of the merger carried out in 2008) and Transgás, S. A. (currently designated Galp Gás Natural, S. A.) to EDP, S. A. was established with the condition that if OPTEP, SGPS, S. A., 093X or any other entity directly or indirectly controlled or participated in by EDP sells or in any other way disposes of, to a third party, a participation equivalent to 5% of Optimus, that is 450,000 shares with a nominal value of €5 per share, during a period of three years as from the date of signature of the agreement (24 June 1999), the difference between the amount of €74,818 k and the sale price would be divided between the parties, as follows:

€k for each 220,000 shares	EDP	GDP Group
Between 37,409 and 42,397	0%	100%
Between 42,397 and 52,373	25%	75%
More than 52,373	75%	25%

On 28 September 2000 GDP, SGPS, S. A., Transgás, SGPS, S. A. (currently designated GDP Distribuição, SGPS, S. A. for purposes of the merger carried out in 2006), Transgás, S.A. and EDP, S.A. made an amendment to the agreement, under which the deadline for dividing any potential gain on the future sale of Optimus shares was extended to 31 December 2003.

On 22 March 2002 EDP announced the sale of the participation in OPTEP SGPS, S. A., the company that holds a 25.49% participation in Optimus, to Thorn Finance, S. A. The sales price was fixed at €315,000 k, which means that Thorn Finance valued Optimus at €1,235,779 k, which is higher than the value established between the parties, which was €748,197 k. Therefore, an upside of €30,253 k arose, payable by EDP, S. A., to be divided equally between GDP, SGPS, S.A. (merged into Galp Energia, SGPS, S. A. effective as of 1 January 2008) and Transgás SGPS, S. A. (currently called GDP Distribuição SGPS, S. A. as a result of the merger in 2006).

In December 2012, Galp Energia, SGPS, S. A. and GDP Gas de Portugal, SGPS, S. A., filed the request for arbitration concerning the sale of the indirect participation sold in Optimus, now awaiting the development process.

As EDP has not agreed to the GDP Group's expectations, this account receivable has not been recorded.

Pledged guarantees

At 31 December 2012 the pledged guarantees amounted to €50,320 k, made up essentially of the following:

- Guarantees in the amount of €49,507 k in benefit of Direção Geral dos Impostos;
- Guarantees in the amount of €500 k in benefit of MEFF Tecnologia y Servicios, SAL;
- Guarantees in the amount of €250 k in benefit of Euroscut Norte, S. A.;
- Guarantees in the amount of €60 k in benefit of Administração do Porto de Sines; and
- Guarantees in the amount of €3 k in benefit of Administração do Porto de Lisboa.

On 31 December 2012, there were standby letter unused import credits totaling \$16,678 k regarding insurance premiums.

34. INFORMATION REGARDING ENVIRONMENTAL MATTERS

Not applicable.

35. SUBSEQUENT EVENTS

There were no subsequent events after 31 December 2012 with material impact.

36. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 14 March 2013.

37. EXPLANATION ADDED FOR TRANSLATION

These financial statements are a translation of financial statements originally issued in Portuguese in accordance with IFRS as adopted by the EU (Note 2.1) some of which may not conform to generally accepted accounting principles in other countries. In the event of discrepancies, the Portuguese language version prevails.

Responsibilities

2. It is the responsibility of the Company's Board of Directors: (i) to prepare the accounts report and the financial statements which present fairly, in all material respects, the financial position of the Company, the results and the comprehensive income of its operations, the changes in equity and the cash flows; (ii) to prepare historic financial information in accordance with IFRS as adopted by the EU and which is complete, true, up-to-date, clear, objective and lawful, as required by the CVM; (iii) to adopt appropriate accounting policies and criteria; (iv) to maintain an appropriate system of internal control; and (v) to disclose any significant matters which have influenced the activity, financial position or results of the Company.
3. Our responsibility is to verify the financial information included in the financial statements referred to above, namely as to whether it is complete, true, up-to-date, clear, objective and lawful, as required by the CVM, for the purpose of issuing an independent and professional report based on our audit.

Scope

4. We conducted our audit in accordance with the Portuguese Statutory Auditing Standards, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. Accordingly, our audit included: (i) verification, on a sample basis, of the evidence supporting the amounts and disclosures in the financial statements, and assessing the reasonableness of the estimates, based on the judgements and criteria of the Board of Directors used in the preparation of the financial statements; (ii) assessing the appropriateness of the accounting principles used and their disclosure, as applicable; (iii) assessing the applicability of the going concern basis of accounting; (iv) assessing the overall presentation of the financial statements; and (v) assessing the completeness, truthfulness, accuracy, clarity, objectivity and lawfulness of the financial information.
5. Our audit also covered the verification that the information included in the accounts report is consistent with the financial statements as well as the verification set forth in paragraphs 4 and 5 of article 451 of the CSC.
6. We believe that our audit provides a reasonable basis for our opinion.

Opinion

7. In our opinion, the financial statements referred to above, present fairly in all material respects, the financial position of Galp Energia, SGPS, S. A. as at 31 December 2012, the results and the comprehensive income of its operations, the changes in equity and the cash flows for the year then ended, in accordance with IFRS as adopted by the EU and the information included is complete, true, up-to-date, clear, objective and lawful.

Report on other legal requirements

8. It is also our opinion that the information included in the directors' report is consistent with the financial statements for the year and that the corporate governance report includes the information required under article 245-A of the CVM.

Statutory auditors' opinion on the stand alone financial statements

(Free translation from the original in Portuguese)

Introduction

1. We have examined the stand alone financial statements of Galp Energia, SGPS, S. A. (the Company) for the fiscal year 2012, comprising the balance sheet as of 31 December 2012 (which reflect total assets of €4.910.493 k and a total equity of €1.530.515 k, including a net income for the year of €27.552 k), the income statement, the statement of comprehensive income, the statement of changes in shareholders' equity, the statement of cash flows for the year then ended, and the related notes to the stand alone financial statements. These financial statements relate to the standing alone activity of the Company and have been prepared in accordance with the IFRS, as adopted by the EU.

Responsibilities

2. The Board of Directors is responsible for: (i) the preparation of stand alone financial statements that present a true and fair view of the financial position of the Company, the results of its operations, the changes in shareholders' equity and its cash flows; (ii) the adoption of adequate accounting policies and criteria and for the maintenance of an appropriate system of internal control and (iii) the disclosure of any significant facts that have influenced its operations, financial position or results of operations.
3. It is our responsibility to report our independent professional opinion, based on our audit of such financial statements.

Scope

4. Our examination was made in accordance with generally accepted Portuguese Statutory Auditing Standards, which require our audit to be planned and performed in order to provide reasonable assurance that the stand alone financial statements are free from material misstatements. Therefore, our audit included examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements, and assessment of the significant estimates, which were based on judgements and criteria defined by the Board of Directors, used in the preparation of the financial statements, assessment of the adequacy of the accounting policies adopted and related disclosures, in the circumstances, examination of the adequacy of the going concern basis of preparation of the financial statements, and evaluation of the overall adequacy of the presentation of the financial statements.
5. Our examination also included verifying that the financial information included in the Board of Directors' Report is consistent with the stand alone financial statements, as well as the verification of the matters mentioned in paragraphs 4 and 5 of article 451 of the CSC.
6. We consider that the audit that we performed provides a reasonable basis for the expression of our opinion.

Opinion

7. In our opinion, the stand alone financial statements mentioned above, present fairly, in all material respects, the stand alone financial position of Galp Energia, SGPS, S. A. as of 31 December 2012, its stand alone results of operations, changes in shareholders' equity and cash flows for the year then ended, in accordance with IFRS, as adopted by the EU.

Report on other legal requirements

8. It is also our opinion that the information included in the Board of accounts report is consistent with the stand alone financial statements and that the Company's corporate governance report includes the disclosures required by article 245-A of the CVM.

Supervisory Board's report and opinion

(Free translation from the original in Portuguese)

Dear shareholders,

According to the current legislation and the Company's articles of association, and under our mandate, we hereby present our report on the supervisory activities we have performed during 2012 and accordingly express our opinion on the accounts report, the individual and consolidated financial statements, as well as the proposed allocation of net profit presented by the Board of Directors of Galp Energia SGPS, S. A., with regards to the 2012 financial year.

During the year, we followed on the management and evolution of the Company's businesses on a regular basis, as well as its more relevant subsidiaries, according to the frequency and extension we considered most appropriate, namely through regular meetings with the Board of Directors. We have followed the inspection of the accounting records, as well as the effectiveness of the risk management, internal control and internal audit systems. We have monitored the compliance of the law as well as of the Company's articles of association. We have not faced any constraints whilst carrying out our duties.

We have met several times both with the statutory auditor and with the external auditor, monitoring both the audit activities and the legal certification of the accounts, as well as supervising their independence and competence. We have reviewed and agreed with both the legal certification of the accounts as well as the audit report of the individual and consolidated accounts.

Under the scope of our mandate, we have verified and we hereby declare to the best of our knowledge that:

- a) the individual and consolidated financial statements and their corresponding notes allow for an adequate understanding of the Company's financial position and results, as well as of the subsidiaries which are included in the consolidation remit;
- b) the accounting principles and criteria used follow the IFRS, as adopted by the EU, and are adequate as to guarantee a correct representation of both the Company's and the Group's assets and results;
- c) the accounts report includes a fair review of the business development just as of the position of Galp Energia and other companies included in the consolidation, clearly highlighting the most significant aspects of the business, as well as a description of the main risks that Galp Energia is exposed to in its operations;
- d) the corporate governance report includes all the information required by article 245-A of the CVM.
- e) Accordingly, taking into consideration the information received by the Board of Directors and other Company departments, as well as the conclusions set out in the legal certification of the accounts and the audit report about the individual and consolidated financial statements, our opinion is that:
- f) the accounts report should be approved;
- g) the individual and consolidated financial statements should be approved;
- h) the proposed application of net profit for the financial year 2012 should be approved.

Lastly, the Supervisory Board wishes to express its gratitude to the Board of Directors and to the Executive Committee of Galp Energia, SGPS, S. A., whose cooperation greatly simplified, at all times, the exercise of the Supervisory Board's duties.
